FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

AN EVENT THAT HITS THE MARK

LYTHAM PARTNERS INVESTOR CONFERENCE SERIES

Our Lytham Partners Investor Conference Series brings companies and investors together through webcast presentations, fireside chats, industry panels, and virtual 1x1 meetings. Each event is archived and available for on-demand viewing. Our conference series has featured more than 125 companies from various industries including healthcare & pharma, consumer, technology, industrials & special situations, clean tech, and financial services.

Our most recent Lytham Partners Summer 2021 Investor Conference held on June 14th - June 16th featured more than 70 participating companies, nearly 30 presenting companies, and 7 industry & special interest panels. Companies ranged in market cap from \$6 billion to \$10 million. [Click here](#) to register for our Fall 2021 Conference!

20+ YEARS EXPERIENCE GUIDING COMPANIES

Lytham Partners is one of the country's leading investor relations firms. With more than two decades of Corporate Access experience, we have built one of the industry's most diverse and effective platforms for connecting small cap companies with high-quality and focused institutional investors. ALKEMY SOLUTIONS (TSXV: AKMY / PINK: AKMYF)

CleanTech

Alkemy (K.B. Recycling Industries Ltd.) is an environmental technology company based in Israel that has developed a unique plastic recycling process for plastic bags and sheets traditionally not considered economically viable for recycling. Alkemy employs a dynamic one-step process that does not require separate recycling and production plants. Alkemy's process includes both recycling and finished product manufacturing in a single process called "waste-to-product", allowing Alkemy to reduce the cost of the recycled plastic as raw materials, and increase the profit margin per metric ton.

AMERICAN MANGANESE (TSXV: AMY / OTCQB: AMYZF)

Basic Materials

American Manganese Inc. is a critical metals company focused on the recycling of lithium-ion batteries with the RecycLiCo™ patented process. The RecycLiCo™ patented process was developed to offer a closed-loop and environmentally friendly solution for the recycling of cathode materials used in lithium-ion batteries. The recycling process provides high extraction and purity of cathode metals, such as lithium, cobalt, nickel, manganese, and aluminum. The RecycLiCo™ process was designed with the goal to produce recycled battery products that could be seamlessly and directly integrated into the re-manufacturing of battery cathodes using minimal processing steps.

ARIANNE PHOSPHATE (TSXV: DAN / PINK: DRRSF)

Basic Materials

Arianne controls the world's largest independently owned, fully permitted and construction-ready undeveloped phosphate project (Lac á Paul), 1 of the 3 macro nutrients used in fertilizer.

AURORA SOLAR TECHNOLOGIES (TSXV: ACU / PINK: AACTF)

CleanTech

Aurora Solar Technologies is a leader in the development and delivery of inline process measurement, analysis, and control systems for solar cell manufacturers. We believe that solar power will be a dominant element in the renewable energy field, and our mission is to bring quality and profitability to every customer through superior control of critical processes during solar cell manufacturing. Aurora's products are used by some of the world's most advanced and respected solar cell manufacturers. With headquarters near Vancouver, Canada, Aurora has operations in Shanghai, China, and partners in all major solar manufacturing markets. Aurora is a public company, traded on the TSX Venture Exchange (ACU) and is a two-time TSX-V Top 50 winner. Aurora's website is located at www.aurorasolartech.com.

AURORA SPINE CORPORATION (TSXV: ASG / OTCQB: ASAPF)

Healthcare

Aurora Spine is focused on bringing new solutions to the spinal implant and pain markets through a series of innovative, minimally invasive, regenerative spinal implant technologies. Aurora Spine is an emerging growth company focused on bringing new solutions to the spinal implant and pain care markets through a series of screwless, innovative, minimally invasive, regenerative spinal implant technologies. Additional information can be accessed at www.aurora-spine.com or www.aurorapaincare.com.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

GSE SYSTEMS, INC. (NASDAQ: GVP)

Industrials

GSE Systems, Inc. (Nasdaq: GVP), is a leader in advanced engineering and workforce solutions that support, optimize and decarbonize operations for the power industry. We are visionaries, and the solutions we create now will be at the forefront of the power industry. GSE Solutions leverages five decades of proven industry experience to provide unique and essential engineering and workforce solutions, services and products focused on performance optimization, regulatory compliance, simulation, training, and staffing for customers worldwide. As one of the largest independent companies serving the clean energy sector of nuclear power and adjacent industries, our solutions support the future of clean energy production and overall decarbonization initiatives of the power industry. For additional information about GSE Solutions, go to: www.gses.com.

IBI GROUP (TSX: IBG / PINK: IBIBF)

Industrials

IBI Group Inc. (TSX:IBG; OTC: IBIBF) is a technology-driven design firm with global architecture, engineering, planning, and technology expertise spanning over 60 offices and 3,200 professionals around the world. For nearly 50 years, its dedicated professionals have helped clients create livable, sustainable, and advanced urban environments. IBI Group believes that cities thrive when designed with intelligent systems, sustainable buildings, efficient infrastructure, and a human touch.

IMMUCELL (NASDAQ: ICCG)

Healthcare

ImmuCell Corporation is a growing animal health company that develops, manufactures and markets scientifically-proven products that improve health and productivity in the dairy and beef industries. The Company develops, manufactures and markets the First Defense® product line that provides "immediate immunity" against aggressive pathogens, including E. coli, coronavirus, and rotavirus in newborn dairy and beef calves without the use of traditional antibiotics. ImmuCell holds a unique position, they are the only animal health company with the ability to concentrate, purify, and quantify specific colostrum antibodies (E. coli, coronavirus, and rotavirus) on a commercial scale. This reduces the amount of antibiotics in the human food chain and it maximizes the productive capabilities of dairy and beef producers future operating assets – their newborn calves. The Company is in the late stages of developing Re-Tain™, a novel purified Nisin intramammary treatment that addresses subclinical mastitis in fully grown milking cows. Mastitis is the most significant cause of economic loss to the dairy industry totaling approximately \$2 BILLION annually. Re-Tain™ will treat infections in milk producing cows without the use of traditional antibiotics, and reduces the amount of antibiotics in the milk supply.

INFUSYSTEM HOLDINGS, INC. (NYSE AMERICAN: INFU)

Healthcare

InfuSystem Holdings, Inc. (NYSE American: INFU), is a leading national health care service provider, facilitating outpatient care for durable medical equipment manufacturers and health care providers. INFU services are provided under a two-platform model. The lead platform is Integrated Therapy Services ("ITS"), providing the last-mile solution for clinic-to-home healthcare where the continuing treatment involves complex durable medical equipment and services. The ITS segment is comprised of Oncology, Pain Management, Wound Therapy and Lymphedema businesses. The second platform, Durable Medical Equipment Services ("DME Services"), supports the ITS platform and leverages strong service orientation to win incremental business from its direct payer clients. The DME Services segment is comprised of direct payer rentals, pump and consumable sales, and biomedical services and repair. Headquartered in Rochester Hills, Michigan, the Company delivers local, field-based customer support and also operates Centers of Excellence in Michigan, Kansas, California, Massachusetts, Texas and Ontario, Canada.

Kraken Robotics Inc. is a marine technology company dedicated to the production and sale of software-centric sensors, subsea batteries and thrusters, and underwater robotic systems. The company is headquartered in Newfoundland with offices in Canada, U.S., Germany, Denmark, and Brazil. In July 2021, Kraken acquired PanGeo Subsea, a leading services company specializing in high-resolution 3D acoustic imaging solutions for the sub-seabed. PanGeo with offices in Canada, the United States and the United Kingdom is now a wholly owned subsidiary of Kraken. Kraken is ranked as a Top 100 marine technology company by Marine Technology Reporter.

LEXAGENE HOLDINGS (TSXV: LXG / OTCQB: LXXGF)

Healthcare

About LexaGene Holdings Inc. LexaGene Holdings, Inc., (OTCQB: LXXGF; TSX-V: LXG), is a molecular diagnostics company that develops molecular diagnostic systems for pathogen detection and genetic testing for other molecular markers for on-site rapid testing in veterinary diagnostics, food safety and for use in open-access markets such as clinical research, agricultural testing, and biodefense. End-users simply need to collect a sample, load it onto the instrument with a sample preparation cartridge, enter sample ID and press 'go'. The MiQLab™ system delivers excellent sensitivity, specificity, and breadth of detection and can return results in approximately two hours. The unique open-access feature is designed for custom testing so that end-users can load their own real-time PCR assays onto the instrument to target any genetic target of interest. For more information visit us at: <https://lexagene.com>

LIQTECH (NASDAQ: LIQT)

CleanTech

LiqTech International, Inc., a Nevada corporation, is a clean technology company that provides state-of-the-art ceramic silicon carbide filtration technologies for gas and liquid purification. LiqTech's silicon carbide membranes are designed to be used in the most challenging water purification applications and its silicon carbide filters are used to control diesel exhaust soot emissions. Using nanotechnology, LiqTech develops products using its proprietary silicon carbide technology, resulting in a wide range of component membranes, membrane systems and filters for both microfiltration and ultrafiltration applications. By incorporating LiqTech's SiC liquid membrane technology with the Company's extensive systems design experience and capabilities, LiqTech offers unique, turnkey solutions for the most difficult water purification applications.

MANNKIND CORPORATION (NASDAQ: MNKD)

Healthcare

MannKind Corporation (Nasdaq: MNKD) focuses on the development and commercialization of inhaled therapeutic products for patients with endocrine and orphan lung diseases. MannKind is currently commercializing Afrezza® (insulin human) Inhalation Powder, the Company's first FDA-approved product and the only inhaled ultra rapid-acting mealtime insulin in the United States, where it is available by prescription from pharmacies nationwide. Afrezza is also available by prescription in Brazil where it is commercialized by the Company's partner Biommm SA. MannKind was established in 1991, and is headquartered in Westlake Village, California, with a manufacturing and R&D facility in Danbury, Connecticut. The Company also employs field sales and medical representatives across the U.S. Please visit www.mannkindcorp.com to learn more.

MEDAVAIL (NASDAQ: MDVL)

Healthcare

MedAvail Holdings, Inc. (NASDAQ: MDVL) is a technology-enabled pharmacy organization, providing turnkey in-clinic pharmacy services through its proprietary robotic dispensing platform, the MedAvail MedCenter, and home delivery operations, to Medicare clinics. MedAvail helps patients to optimize drug adherence, resulting in better health outcomes. Learn more at www.medavail.com.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

NEXT HYDROGEN SOLUTIONS INC. (TSXV: NXH)

CleanTech

Next Hydrogen is a designer and manufacturer of electrolyzers that use water and electricity as inputs to generate clean hydrogen for use as an energy source. Next Hydrogen's unique cell design architecture supported by 38 patents enables high current density operations and superior dynamic response to more efficiently convert intermittent renewable electricity into green hydrogen on an infrastructure scale. Following successful pilots, Next Hydrogen is scaling up its technology to deliver commercial solutions to decarbonize transportation and industrial sectors.

NOUVEAU MONDE GRAPHITE (NYSE: NMG / TSXV: NOU)

Basic Materials

Nouveau Monde is striving to become a key contributor to the sustainable energy revolution. The Company is working towards developing a fully integrated source of green battery anode material in Québec, Canada. Targeting commercial operations by 2023, the Company is developing advanced carbon-neutral graphite-based material solutions for the growing lithium-ion and fuel cell markets. With low-cost operations and enviable ESG standards, Nouveau Monde aspires to become a strategic supplier to the world's leading battery and automobile manufacturers, providing high performing and reliable advanced materials while promoting sustainability and supply chain traceability.

NOVA LEAP HEALTH CORP. (TSXV: NLH / OTCQX: NVLPF)

Healthcare

Nova Leap is an acquisitive home health care services company operating in one of the fastest-growing industries in the U.S. & Canada. The Company performs a vital role within the continuum of care with an individual and family centered focus, particularly those requiring dementia care. Nova Leap achieved the #2 ranking on the 2020 Report on Business ranking of Canada's Top Growing Companies and the #10 Ranking in the 2019 TSX Venture 50™ in the Clean Technology & Life Sciences sector. The Company is geographically diversified with operations in 7 different U.S. states within the New England, South-Central and Midwest regions as well as Nova Scotia, Canada.

NUVVE HOLDING CORP. (NASDAQ: NVVE)

CleanTech

Nuvve Holding Corp. (Nasdaq: NVVE) (Nuvve) is accelerating the electrification of transportation through its proprietary vehicle-to-grid (V2G) technology. Its mission is to lower the cost of electric vehicle ownership while supporting the integration of renewable energy sources, including solar and wind. Nuvve's Grid Integrated Vehicle, GIVE™, platform is refueling the next generation of electric vehicle fleets through intelligent, bidirectional charging solutions. Since its founding in 2010, Nuvve has launched successful V2G projects on five continents and is deploying commercial services worldwide by developing partnerships with utilities, automakers, and electric vehicle fleets. Nuvve is headquartered in San Diego, California, and can be found online at www.nuvve.com.

OPSENS (TSX: OPS / OTCQX: OPSSF)

Healthcare

OpSens focuses mainly in interventional cardiology. The Company offers an advanced optical-based pressure guidewire that aims at improving the clinical outcome of patients with coronary artery disease. Its flagship product, the OptoWire, is a second-generation fiber optic pressure guidewire designed to provide the lowest drift in the industry and excellent lesions access. The OptoWire has been used in the diagnosis and treatment of over 150,000 patients in more than 30 countries. It is approved for sale in the United States, European Union, Japan, and Canada. OpSens is also involved in industrial activities in developing, manufacturing, and installing innovative fiber optic sensing solutions for critical applications.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

ORION ENERGY SYSTEMS INC. (NASDAQ: OESX)

Industrials

Orion provides innovative LED lighting systems and turnkey project implementation including installation and commissioning of fixtures, controls and IoT systems, as well as ongoing system maintenance and program management. We help our customers achieve energy savings with healthy, safe and sustainable solutions, enabling them to reduce their carbon footprint and digitize their business.

OXURION (EURONEXT: OXUR / PINK: TBGNF)

Healthcare

Oxurion (Euronext Brussels: OXUR) is a biopharmaceutical company developing next generation standard of care ophthalmic therapies, which are designed to better preserve vision in patients with retinal vascular disorders including diabetic macular edema (DME), the leading cause of vision loss in diabetic patients worldwide as well as other conditions, including wet age-related macular degeneration (AMD) and retinal vein occlusion (RVO). Oxurion is aiming to build the leading global franchise in the treatment of retinal vascular disorders based on the successful development of its two novel therapeutics: · THR-687 is a pan-RGD integrin antagonist that is initially being developed as a potential first line therapy for DME patients. Positive topline results in a Phase 1 clinical study assessing THR-687 as a treatment for DME were announced in 2020. THR-687 is expected to enter a Phase 2 clinical trial in patients with DME in mid-2021. THR-687 also has the potential to deliver improved treatment outcomes for patients with wet AMD and RVO. · THR-149 is a plasma kallikrein inhibitor being developed as a potential new standard of care for the 40% of DME patients who respond sub optimally to anti-VEGF therapy. THR-149 has shown positive topline Phase 1 results for the treatment of DME. The company is currently conducting a Phase 2 clinical trial evaluating multiple injections of THR-149 in DME patients who previously responded sub optimally to anti-VEGF therapy. Oxurion is headquartered in Leuven, Belgium, and is listed on the Euronext Brussels exchange under the symbol OXUR. More information is available at www.oxurion.com.

PDF SOLUTIONS (NASDAQ: PDFS)

Technology

PDF Solutions, Inc. (NASDAQ: PDFS) turns semiconductor manufacturing and test data into foresight that you can act upon. Organizations around the globe are using our products and solutions to break down data silos, unleash innovation and solve their toughest big data challenges. Founded in 1991 by Drs. John Kibarian and Kimon Michaels, PDF Solutions was visionary in combining software, hardware, IP and services to tackle the numerous development and manufacturing challenges faced by the semiconductor industry. Rather than be limited by the types and amount of data available to solve problems, PDF Solutions invented new ways to generate and collect data that would enable the company to help customers lower the total cost of IC design and manufacturing, accelerate time to market, and improve overall product quality and reliability. This ingenuity has made PDF Solutions an invaluable partner to more than 130 semiconductor companies since 1991. The mission of PDF Solutions is to empower every semiconductor and electronics company to break down the data silos within their supply chains and leverage all of their manufacturing and test data to improve every key performance indicator (KPI) that is important to their business.

PERIMETER MEDICAL IMAGING (TSXV: PINK / PINK: PYNKF)

Healthcare

Perimeter Medical Imaging AI is a Toronto-based medical technology company with U.S. headquarters in Dallas, Texas that is driven to transform cancer surgery with ultra-high-resolution, real-time, advanced imaging tools to address areas of high unmet medical need. Cleared by the U.S. FDA, Perimeter's Optical Coherence Tomography (OCT) Imaging System provides clinicians with cross-sectional, real-time margin visualization (1-2 mm below the surface) of an excised tissue specimen. The ability to visualize microscopic tissue structures "real time" – in addition to standard of care tissue assessment for decision making during the procedure – has the potential to result in better long-term outcomes for patients and lower costs to the healthcare system. Perimeter is also advancing the development of its proprietary, next-gen "ImgAssist" artificial intelligence technology under its ATLAS AI project, which is made possible, in part, by a \$7.4 million grant awarded by the Cancer Prevention and Research Institute of Texas (CPRIT). Perimeter has been granted a Breakthrough Device Designation for its OCT Imaging System coupled with ImgAssist AI, and has plans to initiate a randomized, multi-site, pivotal study to evaluate it against the current standard of care and assess the impact on re-operation rates for patients undergoing breast conservation surgery.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

PRECISION OPTICS (OTCQB: PEYE)

Technology

Founded in 1982, Precision Optics is a vertically integrated optics company primarily focused on leveraging its proprietary micro-optics and 3D imaging technologies to the healthcare and defense/aerospace industries by providing services ranging from new product concept through mass manufacture. Utilizing its leading-edge in-house design, prototype, regulatory and fabrication capabilities as well as its Ross Optical division's high volume world-wide sourcing, inspecting and production resources, the Company is able to design and manufacture next-generation product solutions to the most challenging customer requirements. Within healthcare, Precision Optics enables next generation medical device companies around the world to meet the increasing demands of the surgical community who require more enhanced and smaller imaging systems for minimally invasive surgery as well as 3D endoscopy systems to support the rapid proliferation of surgical robotic systems. In addition to these next generation applications, Precision Optics has supplied top tier medical device companies a wide variety of optical products for decades, including complex endocouplers and specialized endoscopes. The Company is also leveraging its technical proficiency in micro-optics to enable leading edge defense/aerospace applications which require the highest quality standards and the optimization of size, weight and power. For more information, please visit www.poci.com.

REKOR (NASDAQ: REKR)

Technology

Rekor Systems, Inc. (NASDAQ: REKR) a trusted global authority on intelligent infrastructure providing solutions that drive the world to be safer, smarter, and more efficient. As a provider of comprehensive, continuous, and real-time roadway intelligence, Rekor leverages AI, machine learning, and holistic data to provides actionable insights. Rekor believes that intelligent infrastructure is required to truly activate smart cities and with its Rekor One™ disruptive technology and solutions, the Company provides a seamless platform to accomplish this objective. To learn more please visit our website: <https://rekor.ai>.

RELIQ HEALTH TECHNOLOGIES INC. (TSXV: RHT / PINK: RQHTF)

Healthcare

Reliq Health Technologies is a rapidly growing global telemedicine that specializes in developing innovative Virtual Care solutions for the multi-billion dollar Healthcare market. Reliq's powerful iUGO Care platform supports care coordination and community-based virtual healthcare. iUGO Care allows complex patients to receive high quality care at home, improving health outcomes, enhancing quality of life for patients and families and reducing the cost of care delivery. iUGO Care provides real-time access to remote patient monitoring data, allowing for timely interventions by the care team to prevent costly hospital readmissions and ER visits. Reliq Health Technologies trades on the TSX Venture under the symbol RHT, on the OTC as RQHTF and on the WKN as A2AJTB.

S&W SEED COMPANY (NASDAQ: SANW)

Industrials

Founded in 1980, S&W Seed Company is a global agricultural company headquartered in Longmont, Colorado. S&W's vision is to be the world's preferred proprietary seed company which supplies a range of forage and specialty crop products that supports the growing global demand for animal proteins and healthier consumer diets. S&W is a global leader in proprietary alfalfa, sorghum and pasture seeds, with significant research and development, production and distribution capabilities. S&W's product portfolio also includes hybrid sunflower and wheat and the company is utilizing its research and breeding expertise to develop and produce stevia, the all-natural, zero calorie sweetener for the food and beverage industry. For more information, please visit www.swseedco.com.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

SCIENTIFIC INDUSTRIES, INC. (OTCQB: SCND)

Healthcare

Scientific Industries (OTCQB:SCND), is a life science tool provider. It designs, manufactures, and markets laboratory equipment, including the world-renowned Vortex-Genie® 2 Mixer and Torbal® balances, and bioprocessing systems and methods. Scientific Industries' products are generally used and designed for research purposes in laboratories of universities, hospitals, pharmaceutical companies, medical device manufacturers, and pharmacies. To learn more, visit www.scientificindustries.com. Scientific Bioprocessing, Inc. (SBI) is dedicated to providing state-of-the-art instruments, strategies, and technologies to expedite the production of viable cells and therapies with a streamlined process and product consistency. SBI's mission is to develop sensor technologies and instruments that make cell culture and bioprocessing work easier, experiments more reproducible, and culture conditions better suited to meet experimental objectives. SBI is a subsidiary of Scientific Industries, Inc. To learn more, visit www.scientificbio.com.

SENESTECH (NASDAQ: SNES)

Industrials

SenesTech is changing the model for pest management by targeting one of the root causes of the problem: reproduction. ContraPest® is an innovative technology with an approach that targets the reproductive capabilities of both sexes in rat populations, inducing egg loss in female rats and impairing sperm development in males. Using a proprietary bait delivery method, ContraPest® is dispensed in a highly palatable liquid formulation that promotes sustained consumption by rat communities. ContraPest® is designed, formulated and dispensed to be low hazard for handlers and non-target species such as wildlife, livestock and pets, where the active ingredients break down rapidly. We believe ContraPest® will establish a new paradigm in rodent control, resulting in a decreased reliance on lethal options. For more information visit the SenesTech website at www.senestech.com.

SOLIGENIX, INC. (NASDAQ: SNGX)

Healthcare

Soligenix, Inc. is a late-stage biopharmaceutical company focused on developing and commercializing products to treat rare diseases where there is an unmet medical need. We have two areas of focus: 1) a specialized biotherapeutics segment dedicated to the development of products for orphan diseases and areas of unmet medical need such as cutaneous T-cell lymphoma, oral mucositis, pediatric Crohn's disease, acute radiation enteritis. 2) a public health solutions segment to develop vaccines and therapeutics for military and civilian applications in the areas of ricin exposure, acute radiation syndrome, and emerging and antibiotic-resistant infectious disease.

STABILIS SOLUTIONS, INC. (NASDAQ: SLNG)

CleanTech

Stabilis Solutions is an energy transition company that provides LNG and hydrogen solutions to allow our customers to achieve environmental benefits and cost savings over traditional carbon-based fuels.

STRATA SKIN SCIENCES, INC. (NASDAQ: SSKN)

Healthcare

STRATA Skin Sciences is a medical technology company in dermatology dedicated to developing, commercializing and marketing innovative products for the treatment of dermatologic conditions. Its products include the XTRAC® and Pharos® excimer lasers and VTRAC® lamp systems utilized in the treatment of psoriasis, vitiligo and various other skin conditions. The Company's proprietary XTRAC excimer laser delivers a highly targeted therapeutic beam of UVB light to treat psoriasis, vitiligo, eczema, atopic dermatitis and leukoderma, diseases which impact over 31 million patients in the United States alone. The technology is covered by multiple patents. STRATA's unique business model leverages targeted Direct to Consumer (DTC) advertising to generate awareness and utilizes its in-house call center and insurance advocacy teams to increase volume for the Company's partner dermatology clinics.

FALL 2021 INVESTOR CONFERENCE

OCTOBER 5-7, 2021

SUSGLOBAL ENERGY CORP. (OTCQB: SNRG)

CleanTech

SusGlobal Energy Corp., the developer of SusGro™, a revolutionary pathogen free organic liquid fertilizer is a renewables company focused on acquiring, developing, and monetizing a portfolio of proprietary technologies in the waste to energy and regenerative products applications globally. It is management's objective to grow SusGlobal into a significant sustainable waste to energy and regenerative products provider, as LEADERS IN THE CIRCULAR ECONOMY®.

TAAL DISTRIBUTED INFORMATION TECHNOLOGIES (CSE: TAAL / OTCQX: TAALF)

FinTech

Taal Distributed Information Technologies Inc delivers value-added blockchain services, providing professional-grade, highly scalable blockchain infrastructure and transactional platforms to support businesses building solutions and applications upon the BitcoinSV platform, and developing, operating, and managing distributed computing systems for enterprise users.

THE TRENDLINES GROUP (SGX: 42T / OTCQX: TRNLY)

Healthcare

The Trendlines Group is an investment company that invents, discovers, invests in, and incubates innovation-based medical and agrifood technologies to fulfill its mission to improve the human condition. As intensely hands-on investors, Trendlines is involved in all aspects of its portfolio companies from technology development to business building. Trendlines' shares are traded on the Singapore Stock Exchange (SGX: 42T) and in the United States as an American Depositary Receipt (ADR) on the OTCQX International (OTCQX: TRNLY).

VICTORY SQUARE TECHNOLOGIES (CSE: VST / OTCQX: VSQTF)

Technology

Victory Square (VST) builds, acquires and invests in promising startups, then provides the senior leadership and resources needed for fast-track growth. VST's sweet spot is cutting-edge tech that's shaping the 4th Industrial Revolution. Our corporate portfolio consists of 20+ global companies using AI, VR/AR, and blockchain to disrupt sectors as diverse as fintech, insurance, health and gaming.

VOLITIONRX LIMITED (NYSE: VNRX)

Healthcare

Volition is a multi-national epigenetics company developing simple, easy to use, cost effective blood tests to help diagnose a range of cancers and other diseases. Early diagnosis has the potential to not only prolong the life of patients, but also to improve their quality of life. The tests are based on the science of Nucleosomics™, which is the practice of identifying and measuring nucleosomes in the bloodstream or other bodily fluid - an indication that disease is present. Volition is primarily focused on human diagnostics but also has a subsidiary focused on animal diagnostics. Volition's research and development activities are centered in Belgium, with a small laboratory in California and additional offices in Texas, London and Singapore, as the company focuses on bringing its diagnostic products to market.

WRAP TECHNOLOGIES (NASDAQ: WRAP)

Technology

WRAP Technologies is a global leader in innovative public safety technologies and services. WRAP develops creative solutions to complex issues and empowers public safety officials to protect and serve their communities through its portfolio of advanced technology and training solutions. WRAP's BolaWRAP® Remote Restraint device is a patented, hand-held pre-escalation and apprehension tool that discharges a Kevlar® tether to temporarily restrain uncooperative suspects and persons in crisis from a distance. Through its many field uses and growing adoption by agencies across the globe, BolaWRAP is proving to be an effective tool to help law enforcement safely detain persons without injury or the need to use higher levels of force. WRAP Reality, the Company's virtual reality training system, is a fully immersive training simulator and comprehensive public safety training platform providing first responders with the discipline and practice in methods of de-escalation, conflict resolution, and use-of-force to better perform in the field. WRAP's headquarters are in Tempe, Arizona. For more information, please visit wrap.com.

XS FINANCIAL (CSE: XSF / OTCQB: XSHLF)

FinTech

XS Financial provides the U.S. cannabis industry access to competitively-priced, non-dilutive CAPEX financing solutions. Founded in 2017, the Company specializes in providing financing for equipment and other qualified capital expenditures to growing cannabis companies, including cultivators, processors, manufacturers and testing laboratories. In addition, XSF has partnered with over 150 original equipment manufacturers (OEM) through its network of Preferred Vendor partnerships.

ZOOMD TECHNOLOGIES (TSXV: ZOMD / PINK: ZMDTF)

Technology

Zoomd offers a site search engine to publishers, and a mobile app user-acquisition platform, integrated with a majority of global digital media, to advertisers. The platform unifies more than 600 media sources into one unified dashboard. Offering advertisers, a user acquisition control center for managing all new customer acquisition campaigns using a single platform. By unifying all these media sources onto a single platform, Zoomd saves advertisers significant resources that would otherwise be spent consolidating data sources, thereby maximizing data collection and data insights while minimizing the resources spent on the exercise.
